Are these suppliers reliable?

Suppliers cannot be classified as consistently 'reliable' or 'unreliable'. While we filter suppliers based on the selection criteria (see Page 2) to find the most qualified companies, the outcome depends entirely on how the process as a whole is managed.

As such, it's crucial that you follow the Import Manual tutorials and task lists, and request assistance from your Dedicated Expert on a regular basis. Do not assume that the supplier listed in this report are by default 'reliable' or 'quality' suppliers.

Are you not satisfied with this report?

If this is not the result you expect, please [log in](#) and submit a ticket via the Dedicated Expert section in the Dashboard. You can expect a reply within 24 hours (Monday to Friday).

Warning!

Product Certificates (✓) is not implying that all products made by the supplier are automatically compliant with all product regulations and labeling requirements in your country. Instead, it means that the supplier claims to have made compliant products, by statement or test reports.

While this is a crucial part of the sourcing process, you must still follow the compliance process, that includes lab testing, label file creation, and document creation. Please see Import Manual: Part 6 for more information about product compliance.
